Marshes Hill Management Plan

SMDC transferred eleven sites over to SWT to manage in 2024. SWT have 43 reserves in total.

- Marshes Hill is a small 6-hectare lowland heathland site of biological importance.
- Special species include heather, bilberry, gorse and wavy hair grass.
- The plan is focused on rotational gorse copping and small patch cropping of Heather to create a variety of structures. (Grazing sheep would do this naturally)
- Staff have been trained to fly drones to check to patching.
- Linnets nest in old gorse and a breeding zone for young butterflies.
- A volunteer team, maintain 4 local sites – Biddulph Grange, Newpool Meadows, Biddulph Valley Way and Marshes Hill. New volunteers are always welcome.
- The site has 15-20% tree scrub – mainly Birch and Oak.
- A new SWT sign will be fitted soon. Potholes will be filled and posts and rail repairs will be completed in the car park.
- Volunteer Steve Shirley was thanked for opening and closing the car park barrier on the site for many years.
- If the trust could access some funding the dry-stone wall which spans the site could be restored.

Cllr Porter arrived at 6.40pm

- a. A question was asked about SWT commenting on planning applications. Mark responded that SWT are a statutory consultee and are duty bound to respond.

- b. It was reported that the car park barrier gets damaged regularly.
- c. A question was asked about the presence of skylarks and meadow pipets. Mark had not had sighting of these but will make a note to check for these birds.
- d. A question was asked about the rules about dog walking on SWT land. Dogs must be under control but there is no stipulation that they must be on short leads. Mark explained that as the site is council owned the SWT adopt the same rules as the council and not the SWT reserve rules. It was suggested that signage could advise of these rules to visitors.
- e. Volunteers can come along to help on Thursdays from 10-2.30pm and they work rotationally between the four local reserves.

5. Public Participation:

- a. A resident spoke about the local knowledge of the flooding on the proposed site for the development of up to 55 dwellings on Land off Breach Road.
- b. Video evidence was captured following the flooding recently after heavy rainfall.
- c. A question was asked about the Planning process after the public participation window closes. Cllr Flunder was allowed to comment on the process only:
 - a report of all the public comments will be produced
 - a late representations report with any additional information received from statutory consultees will be produced.
 - The case officer will form an opinion based on Planning Policy (to approve or not)
 - A Planning Committee date will be set. The agenda will be released 1 week before.
 - A site meeting for the Planning Committee to inspect the site will happen usually on the day of the Committee meeting.
 - Residents can register to speak at the Committee (3 minute time slot)
- d. A question was asked about pumping sewerage off the site.
Cllr Jebb explained that fine detail would be decided within Reserved Matters. Severn Trent will be the authority to decide on surface water, drainage and sewerage.
